Local News of Irma and District

A successful social took place at the home of Mrs. Clark, Clark Manor Thursday Sept. 9th, which was presided over by Mrs. R. M. Harper.

An excellent program had been arranged. Miss Tilly gave a selection on the piano which was well received. Mrs. Dixon sang in her usual good style. A recitation by Mr. Russell Love was heartily applauded. The three items on the piano by Miss Bessie Vickers were a musical treat. Ice cream, tea, coffee and cake were served during the evening.

Notice

All elevators in Irma will be closed for noon hours between 12:30 and 1:30 p. m. daily during this season. Found—A gold watch. Owner may have same by proving property and paying for this ad.

W. B. Peterson

Irma Co-operative Co. will ship cattle Friday, Sept. 24th. Notify the manager if you have anything ready.

Looking For Oil is Big Game Now

Seven thousand acres of oil lands in the neighborhood of Fort Norman where the Imperial Oil company have made their strike have been blanketed as a result of the registration at the Edmonton land office of forty-six oil claims during the past couple of weeks, officials of the land office report.

In addition to the registration of claims made locally, it is anticipated that many claims have been filed at the sub offices of the land department located at Fort Smith and Fort Simpson. Notification of these have not yet reached the local office.

The strike made by the Imperial Oil company at Fort Norman has developed a great deal of additional interest in the oil lands of northern Alberta and it is expected that this will be followed by added activity in new drilling projects and the further prosecution toward completion of wells now being drilled.

REGINA, Sask., Sept. 17.—The Canadian Press is informed today, on good authority, that a contract has been entered into between the Imperial Oil company, Ltd., and the Great West Natural Gas corporation, Ltd., for the development of Saskatchewan and Alberta as natural gas and oil fields.

It is understood that both companies to the agreement will carry on operations. This can only mean that if the Imperial Oil company strikes gas while drilling, the Great Western concern gets it, and if oil is struck by the Great West the Imperial Oil gets the output.

Look Out for Rosebuds.

Local grain buyers have been advised that wheat containing more than one per cent rosebuds will be graded "Rejected." As considerable grain that is being threshed this fall contains a considerable percentage of rosebuds, farmers are advised to see that this is remedied when the grain is going thru the machines.

CONCERT.

Prepare now: To attend the concert to be held in the Albert school at Zoldovara on Friday evening Oct. 1st. A good programme has been prepared, an interesting time is assured you. Admission 50 cents including programme and supper. Everybody welcome.

ORANGE LODGE.

The next lodge will be held on Thursday Oct. 7th when it is expected that the Orange Blue and Royal Arch Purple degrees will be put on. All Orangemen are invited to be present. A duck supper will be served.

A straw stack was burned on G. A. Tilly's place on Section 17 Wednesday, when a spark from the hot box on the blower of Bert Simpson's separator set fire to the straw. The graveyard near by and the separator were saved after some hard work on the part of the crew.

Grain has started to move. H. Knudson shipped the first car of wheat and J. R. Love the first car of oats from this point.

The wedding of Mr. J. D. Elliott and Miss Bessie Brickman, both well known in Irma took place at Kinsella Thursday afternoon. We expect to have an account of it for next week's paper.

For Sale Cheap—The N. E. quarter of 30-46-9, Six miles north of Irma. Improvements: Barn, house, good well, 40 acres broke, now in summer fallow; all fenced and crossfenced. Will take \$1600 cash, or what offers? Terms may be arranged.

Apply J. Ellis, Owner 317 Princess St. New Westminster, B. C. 26-32p.

For Sale Good milk cow five years old to calve Sept. 20th. Shack 16x18, suitable for granary. Small house 14x28, shingle roof. See J. W. Wyatt.

For Sale.

Clearing Sale to make room, 18 hens, 12 full-blooded Buff Orpington Hens, one year old, and rooster, also young stock from Buff Orpington and S. C. Leghorns.—P. E. Jones, Irma.

Huns Must Sign Treaty This Week

Paris.—Distinct progress was reported on the reply of the allied and associated governments to the German counter-proposals. The government will give five days' limit for final action, which would therefore come on or before June 18.

The main feature of this progress was an agreement regarding the separation terms, which have been the subject of a sharp controversy during the past ten days.

As finally adopted, the terms do not fix the definite amount of reparations, but the commission is required to fix the amount within four months of the signing of the treaty.

The main changes are explanations rather than modifications, in order to meet the contention that the financial commission was vexatious, inquisitorial on Germany's rights to conduct her own financial affairs.

The revised terms clear away much that was open to the construction of being vexatious.

Final action on Germany's request for admission to the League of Nations has not yet been reached, but the discussion is declared to be tending toward an accord.

The Silesian question, which has given difficulty, also has virtually been settled. It is practically certain that the revised treaty will not be submitted to a plenary conference with the smaller powers before the reply is sent to the Germans. The revised treaty and memorandum accompanying the treaty will be sent to Count von Brockdorff-Rantzau, head of the German delegation, by messenger without ceremony.

Dry City To Have \$7,000,000 Hotel

Work Will Be Started Within Sixty Days

Detroit, Michigan.—In view of the oft-repeated statements of the liquor interests that prohibition would ruin the hotel business of the state, it is interesting to note the announcement that work will be started within sixty days on a hotel for Detroit, which will cost \$7,000,000, and contain 1,000 rooms. It will be financed entirely with Detroit capital. The site fronts on Madison avenue, Witherell street, and Adams avenue, and the hotel will overlook Grand Circus Park.

French Are Passive

Toward the Movement for a Rhenish Republic

Paris.—The attitude of the French government toward the movement for a Rhenish republic is a passive one, according to a statement by a high French authority on the French official position.

"The attitude of the French government toward this manifestation," the authority said, "is the same as the attitude of the other allied governments—that is, one of passiveness. Besides the French government cannot profit by this manifestation, since the promoters of the movement have placed the Rhenish republic under the German republic."

"The French forces have been instructed simply to maintain order and prevent outbreaks of violence on either side."

True Between Austria and Jugo-Slavs

Belgrade.—The armistice between the Austrians and the Jugo-Slavs in the region of Klagenfurt was forced by the entry of Serbian troops into the city to re-establish order, the Austrians having failed to accept the Jugo-Slav conditions for a cessation of hostilities in Carinthia, according to an official statement from Serbian headquarters.

Rioting In Winnipeg

Wat Hero Injured By Mob and Special Constable Shot

Winnipeg.—Following the first really serious conflict between returned soldier constables acting in place of the regular police force, which was dismissed by the police commission following refusal to pledge themselves to refrain from joining sympathetic strikes, seven arrests were made. Serious trouble resulted when a large crowd of strike sympathizers jeered and boozed the special constables.

The crowd surged into the street, and it was in an effort to clear a path for vehicles that the specials came into conflict with demonstrators. One of the mounted constables, Sergeant Frederick G. Copping, winner of the Victoria Cross in the great war, was the only person seriously injured. He was dragged from his horse and severely pummelled before being rescued.

When a squad of special police was dispatched to the aid of their sorely pressed comrades, they were met by a fusillade of missiles, and the police retaliated by a free use of their batons on the heads of demonstrators.

The appearance of an additional detail of 200 policemen marching down Main street in platoon formation had a calming effect on the crowd and the rioting ceased as suddenly as it began.

In another clash between a crowd led by aliens and four special constables, Constable T. S. Morrison is lying in the hospital with a shot wound through his thigh and body contusions. One of his comrades was struck over the head with a club and knocked unconscious, but is not seriously injured.

Special Constable Morrison was on patrol duty in the vicinity of the Canadian Pacific railway station on Higgins avenue in company with three other officers. A hostile crowd, of what is estimated to have been over a hundred persons, of whom the majority are alleged to have been aliens, struck, commenced to gather, and for some time combed to heckle the constables. Suddenly the crowd closed around the policemen.

Morrison was the last officer to be dispersed by the crowd, being knocked unconscious by a blow on the back of the head. At the instant he fell a big man was seen to have raised club above his head. An automobile then reached the scene, and the driver, seeing the raised club, drew a revolver and fired low at the assailant. The bullet missed the object and passed through the thigh of Constable Morrison, whom the driver had intended to aid.

At a special meeting of the police commission a resolution was passed relieving the chief of police, Donald MacPherson. Chris H. Newton, hitherto deputy chief, is now the acting chief.

In a statement issued by the police commissioners it is stated that the commission "deemed it advisable to place the reorganization of the police force in charge of Deputy Chief Newton."

Black Watch—The Best Black Chewin Tobacco on the Market

Hamlets That Never Can Be Rebuilt

Paris.—Investigations by the commission which is examining the devastated regions of France are confirming the previous evidence that many of the beautiful towns and hamlets of the battle area are so totally ruined that they never can be rebuilt. Vaux, of immortal fame, has taken its place in the long list, and the mayors of two other historic villages, Douamont and Fleurie, have recently notified their people, who are refugees in various parts of France, that these places cannot be reclaimed. Not only is the soil in such shape that it cannot be cultivated for many years, but the ruined hamlets are filled with hidden explosives and other dangers.

Protests Against Territory Losses

Paris.—An Austrian note complains strongly against the dismemberment of Austria, particularly the separation of Bohemia and the Tyrol. The note says that Austria cannot survive the loss of her industries. It is added that the Austrian delegation is prepared to send immediate observations on the territorial clauses of the peace terms.

Rhenish Republic Ready to Pay Share

Cologne.—Dr. Darten, president of the new Rhenish republic, has telegraphed Sir William Robertson, commander of the British forces of occupation here, announcing the formation of the republic and repudiating any desire to evade a "just share in the reparation of war damages." He appeals to the entente powers to protect the new state from inevitable revenge from Prussian militarism.

W. N. U. 1268

Inhumanity In Russia

More Stories of Ruthless War Come From Russian Baltic Provinces

Paris.—Howard Herman at the Baltic headquarters of the relief administration situated at Libau has written to the Paris headquarters a graphic description of the scenes in the Baltic provinces from which the Bolsheviks have been expelled. Describing the conditions he found in Riga, Captain Herman says:

"Among the sights I have seen was the shooting of eighteen Bolsheviks, three at a time, by a German firing squad. It was German efficiency at its best. A ditch was dug by Bolsheviks awaiting trial, and the other wretches, already condemned, came up three at a time as their names were called.

"The condemned men stood with their heels at the edge of the ditch and with their eyes unblinded, faced their executioners—nine hard German soldiers, of whom three fired at each condemned man's head and one at each heart. After the last three had tumbled into the hole that had been dug for them, Bolsheviks awaiting trial threw a few shovels full of dirt into the grave, and were then led back to prison."

"Our moving picture operator was turning the crank of his camera during all this. He had no appetite for dinner after taking a close-up of the open grave."

To Sow Seeds Of Revolution

Bolshevik Secret Agents in Every City Throughout U.S. and Canada

Boston, Mass.—There are over 173,000 Bolshevik secret agents working in the United States and Canada at the present time, according to General Drobansky, of the National Russian army, who is in Boston on a mission for the Omsk government to interest leaders of opinion in the movement to fight Bolshevism in America as well as in Russia, and to help gain recognition for the Omsk government by the allies. The General was head of the technical department of the Russian Ministry of War before the Bolshevik revolution, and was very instrumental in saving the vast military stores of the allies collected at Vladivostok and elsewhere, valued at over \$650,000. He fled from Russia disguised as a workman, to Siberia via Europe and the United States, where the Bolsheviks gained power, and thus was able to help the allies in Siberia.

He declared that there is a worldwide menace from the Bolshevik doctrine, which is being propagated by means of stolen Russian gold, by means of secret agents in every manufacturing and mining city, and town and seaport throughout the United States and Canada. He declares that these agents have divided the two countries into districts, in each of which a soviet is to be established after existing governments are overthrown.

These agents have a number instead of a name, to disguise their identity. An agent bearing the number of 173,000 has been discovered by the committee. Many of them are of Teutonic origin as well as the leaders in Russia, who adopted Russian names there to disguise their origin. America and Canada must be on their guard to crush out this menace and ferret out the agents, he says.

Reform For Ireland

Prospect of Large Measure of Reform Is Bright

London.—The Daily News prints the following from an Irish correspondent:

"There has been a vast amount of speculation regarding the intentions of the government toward Ireland, and the prevailing idea is that the government intends to embark on a larger policy of repression."

"I have reason to know from an authority of very high standing in regard to Irish politics, but whose name I am not in a position to disclose, that the prospect of a large measure of reform for Ireland is very bright."

"As a return for his attitude with regard to the claim of Ireland to be heard at the Peace Conference, the authority to whom I allude states that

President Wilson has obtained a very definite undertaking from the Prime Minister that a wide measure of reform for Ireland will at once be taken in hand."

Austrians Appeal for Assistance

Paris.—The Austrian delegation at St. Germain has asked Germany to protest to the allies against the rigor of the peace terms presented to Austria, the Hayes Agency says it is informed from a reliable source. The report action of the Austrians is unfavorably commented upon here.

Germans Fear A Blockade Renewal

Overpayments To Soldiers Found

Inquiry By Public Accounts Committee Reveals Many Errors

Ottawa.—The inquiry by the public accounts committee into overpayments made by the separation allowance and assigned pay branch of the Military Department to soldiers and their dependents was continued, with Mr. T. Cox, chief accountant of the branch, as the chief witness.

Mr. Cox informed the committee that overpayments totalling \$202,000 had been definitely ascertained, but that there are from twenty to twenty-five thousand ledgers showing overpayments in addition and that the total had not been figured up.

Mr. Vent, who was conducting the inquiry for the opposition, declared that the sum could be ascertained by two clerks with an adding machine in a couple of days, but Mr. Cox said it would take his whole staff six days to do the work.

Finally Mr. Cox undertook to do his best to have the figures available for the committee by Wednesday.

The witness had previously explained that when an undischarged soldier is overpaid, the amount is recoverable from his pay, and when he is discharged the soldier still has recourse to the soldier's war gratuity. Overpayments were first discovered as the result of an inquiry held in 1917. They are due in most cases to overlapping of payments in England and Canada, which could not always be avoided.

Mr. Jacobs asked the witness if it was so that pensions had been paid to the relatives of soldiers believed to be dead, and that they had turned up safe and sound. Mr. Cox said he had heard of only one case of that kind.

To Mr. Parent, the witness stated that over forty thousand dollars overpayment has so far been recovered from the war service gratuity fund.

Suing Labor Unions For Losses By Strike

Important Question Raised by Suit in Court of the United States

Pittsburgh, Pa.—The people of Pittsburgh, through A. E. Anderson, an attorney, filed a suit in equity in court here against the Amalgamated Association of Street and Electric Railway employees, in which the union is asked to pay damages of \$2,035,000,78, which sum it is claimed by these agents have divided the two countries into districts, in each of which a soviet is to be established after existing governments are overthrown.

The suit raises the question of the right of employees engaged in such a service to strike to enforce demands for better pay and improved working conditions. Defendants of the Pittsburgh railway company are named as party defendants.

A Long Trip

North Portal, Wm. Reed, of Ottawa, Kansas, arrived here recently with team, wagon and dog. He is following the long trail from Kansas to the Peace River country, a distance of over 2,000 miles. He is not discouraged, though taken down with "flu" en route and told that his horses would be shot at the boundary and this his dog would not be admitted to Canada.

Assist Veterans To Go On The Land

Ottawa.—When Hon. Dr. Bland rose to continue the debate on the budget he was vigorously applauded by members of both sides of the House.

With the war over, said Dr. Bland, Canada's soldiers were now returning to their homes. What the government should do was to help as many of these men who desired to become farmers to settle on the land. The financial assistance which the government offered to soldiers who wished to settle on the land was not sufficient incentive. He believed the government should give them a fiscal policy which would in itself be an invitation to become farmers. The farmer wanted free implements. Granted the admission of things necessary to make a home. Dr. Bland asserted immigration should be stopped for a time at least, or at any rate confined to farm laborers and domestic servants. He regretted very much the Siberian expedition, and he had not found anyone in Canada to approve it.

Dr. Bland hoped that when the finance minister issued his new loan it would be subjected to taxation. In regard to the cost of living, Dr. Bland said there were three ways of meeting it. First, increased production; second, reduced taxation on consumption; and third, bringing the profiteer to account. He instanced the recent rise in the price of butter, and asked why the government had not intervened to have butter released from cold storage. There were dangerous agitators in the country.

No quarter should be given to them.

But no quarter also should be given to the profiteer.

Berlin.—(Reuters)—A terrible picture of the fate awaiting Germany unless she signs a peace treaty is drawn by the Vossische Zeitung, which prophesies that "the allies will, in any case, occupy more of the west German industrial region. The Poles will attack us in the east. In a short time trains will cease to run owing to lack of coal. Our towns will be without gas, food and electricity, and we will be unable to thresh the new corn except with the flail. Our industries will cease owing to lack of raw materials. In short, the life of the whole nation will come to a standstill and collapse."

The Journal further pictures Soviet republics being established all over Germany with Berlin as a Soviet republic. It finally begs all who are opposed to signature of the peace treaty to reconsider the question in the light of these possibilities.

Crimes Charged Against Germany

British War Secretary Announces Some Cases Laid Before Investigators

London.—Winston Spencer Churchill, secretary for war, announced in the house that the facts in the following cases had been laid before the committee appointed by the attorney-general to investigate alleged violations of the laws of war:

Private McGraw, 1st Coldstream Guards, was a prisoner of war at Guards, was reported to have been wounded in the thigh with a sword in the hands of a German adjutant at Schneidemuhle camp on November 7, 1915, died in a hospital January 6, 1916.

Private Skett, 3rd Coldstream Guards, was a prisoner of war at Pinne, on the eastern front, and became exhausted after a long march in the snow on April 7, 1917, was unable to proceed. He was ordered by a sentry to move on. On replying that he was unable to do so, the sentry deliberately killed him.

Railway Shop Workers May Now Strike

Canadian Railway War Board Has Made No Move In Answer to Union Ultimatum

Montreal.—The Canadian railway war board has absolutely nothing to say, either officially or otherwise, regarding the strike ultimatum sent them by the Railway Federated Shop trades, representative of 35,000 workers in all the railway shops of Canada.

The executive committee of the federation is in the same position, and has made its statement, which is issued to all the members, for a strike and now awaits the expiration of the time limit of the ultimatum or the next move of the railway companies.

Command Riga Gulf

Paris.—(French Wireless)—The Council of Four has sanctioned the occupation of Oesel Island, which commands the entrance to the Gulf of Riga, by British troops. The Estonian government agreed on the occupation as a guarantee for the payment of financial aid to the Estonians.

Increased Divorce Rate

Ottawa—According to a return tabled in parliament, 398 applications for divorce have been received by the Dominion senate since confederation, and 341 divorce bills have been passed by the upper house. During the present session, up to May 31, 58 divorce petitions have been received and 42 divorces recommended. In connection with seven applications all fees have been remitted, while in ten cases the fees have been partially remitted.

Final plans are now being prepared for the three additional farm schools that are to be built this summer at Youngstown, Raymond and Gleichen. Through these schools additional fair work will be developed. It is hoped to have the schools themselves finished in time for the winter session, which begins early in November.

Japan Planning \$10,000,000 Tunnel**One Mile of it Will Be Completely Under the Sea**

Washington, District of Columbia—Advices from Tokio say a submarine tunnel under the Shimonosaki Strait will be started this year, and is planned to complete it in 1928, according to an announcement by the chief of the construction bureau of the Japanese Government railways.

It is estimated that the tunnel will cost \$10,000,000. Two years will be devoted to studying the geological formation of the strait bed and drafting the general plan of work in preparation for the tunneling. Japan will send engineers to the United States and Europe to study the tunneling achievements of the West.

The length of the tunnel will be seven miles, of which one mile will be completely under the sea.

If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

Amending Liquor Act

Edmonton, Alta.—Amendments to the Alberta liquor act are now in force, and something nearer a government fixed price for liquor on physicians' prescriptions will be the rule. Under the terms of the amended act the government has power to fix the prices charged by druggists. This action has not yet been taken, but will be covered by an order-in-council in the near future.

World Food Committee

Paris.—The supreme economic council has appointed a committee, composed of Herbert Hoover, Lord Robert Cecil, M. Clemenceau, Signor Crespi and Baron Emile de Cartier de Marchienne, of Belgium, to study a plan for liquidation of the world's food control and to study how economic problems are to be met after the approaching harvest.

THANKFUL MOTHERS

Thousands of mothers throughout Canada—many of them your neighbors—speak with thankfulness concerning the use of Baby's Own Tablets. Once they have used the Tablets for their little ones they would use nothing else for them. Tablets are an absolutely safe medicine for the youngest baby, being guaranteed by a government analyst to contain neither opiates nor narcotics or other harmful drugs. Concerning them Mrs. Williams, of Rockwood, S. C., says: "I have used Baby's Own Tablets and have found them so satisfactory I would not be without them." The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brooklyn, Ont.

British Cold Storage**Capacity of Ships Now Greater Than Ever, Despite U-Boats**

London.—At a dinner of the Cold Storage Association, Sir Joseph Brodbeck, presiding, said that there were now 50 British ships with refrigerating accommodation of 50,000,000 cubic feet, a noteworthy number, and a capacity greater than ever, despite the U-boats. Rt. Hon. G. H. Roberts, food controller, referring to the value of refrigeration, mentioned that since the beginning of 1918 there had never been less than 32,000,000 tons of produce stored in the United Kingdom, over one-half of which was meat.

Pity the Poor Kings

The desperate straits of ex-royalty in Europe are instanced in the case of former Emperor Charles, who has taken refuge in a Swiss castle that is occupied by his mother-in-law.—Kansas City Journal.

Ten days' intimate acquaintance with poverty will satisfy any man for the rest of his natural days.

Babylonian Tablets Bought

Columbus.—Thirteen clay tablets dating from 400 to 2,400 B.C. have been purchased by the Ohio State University library. They were found in ancient Babylonian cities recently excavated. One tablet contains notices of the number of animals to be sacrificed at the temple each day. The others are letters, business communications and receipts for animals.

Taking It Easy
Do you find that prohibition has depressed Crimson Gulch?"
"No," answered Cactus Joe. "We're more cheerful than usual. Everybody seems to think it's a great joke on all the rest of the boys."—Washington Star.

HAD WEAK and FAINTING SPELLS

These feelings of faintness, those weak, half-gone sinking sensations, which come over some people from time to time, are warnings that must not go unheeded.

They mean an extremely weakened condition of the heart and a disturbed nervous system.

When the system is in this condition fainting is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes deep rooted and perhaps hopeless.

Miss Mary McCoy, Algoma M.H.P., says: "I have always established with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of these pills, and said, 'Take a box of Milburn's Heart and Nerve Pills.' That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and I highly recommend them."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Wheel Greatest Invention**World Without Wheels Is Best Left to the Imagination**

Some time ago readers of an English newspaper were asked to state what, in their opinion, constituted the world's greatest invention. There followed a veritable postcard deluge. Having sifted the wheat from the chaff, it was decided to award the guinea prize to Sergt. H. Jordan of the 19th Hussars, Aldershot, whose entry read:

"The world's greatest invention is undoubtedly the wheel, and the palm should be awarded to the unknown genius who invented it.

"Steam traction, spinning, looms, motor cars, and, in fact, almost every invention and machine now in everyday use, owes its very existence to wheels, and depends upon the wheel to enable it to carry out its functions."

"A world without wheels is best left to the imagination. No taxis, no trains, no watches, no ships, and no revolution." In fact, like love, it is "wheels that make the world go round."

A Broad Hint

A young woman going with a party of visitors through the parks and gardens of a famous house, lingered behind to admire the gorgeous peacocks. "Do these birds ever drop any of their tail feathers?" she asked of a gardener who stood by.

He looked round, lowered his voice, and replied:

"They're obstinate birds, miss, but they drop 'em easy at the sight of a quarter."

SNUFFS OUT A COLD IN A FEW MOMENTS

Clears the Nasils, Stops Sneezing, Heals the Throat Quickly

Catarrhoze Works Wonders

Lots of people used to let their colds "work off"—they suffered a whole lot, sneezed around the house, till the whole family finally caught the infection.

Nowadays colds are cured by Catarrhoze before they really get good start. This healing vapor, full of pure essence, gives instant relief. It fills the breathing organs with a healing, soothing vapor that relieves irritation and swelling. A cold can be cured in ten minutes. Absolutely sure for Catarrh, and in throat trouble it works like a charm. Catarrhoze is a permanent cure for bronchitis and throat trouble. Not an experiment but a great guarantee. Get "Catarrhoze" today, and be bewitched by its substitutes. The dollar outfit is guaranteed, and small size 50c; trial size 25c at all dealers.

They Played Hard
"Mother! I'm so lonesome. I've no one to play with," complained Albert. "Well, go and play with Dickey."

"Oh, I played with him this morning, an' I don't b'lieve he's well enough to come out yet."—Chicago Tribune.

Cost Of Living From Farmers' Standpoint**Guelph Agricultural College Professor Tells Cost of Produce**

Ottawa.—Professor Tool, of the Guelph Agricultural College, gave the cost of living committee of the commons figures of cost of the production of butter, beef and pork. These figures were the result, he said, of tests undertaken, superintended or observed by himself.

For the year ending February 28, 1918, a careful account was kept of the costs of 437 Oxford county farmers. Five hundred dollars was allowed to the farmers as wages, and seven per cent for his investment. Other expenses were accurately allocated, and they found that the average cost of milk was \$2.17 per 100 pounds. The average price paid for the milk was \$2.10 per 100 pounds. Today, with good management, milk per 100 pounds would cost from \$2.50 to \$2.75 to produce. The cost of labor had a wet day in Glasgow that a man, efficiency had decreased 10 to 20 per cent.

Col. Mackie suggested that a western range owner should be brought to Ottawa to explain the extraordinary increase in the price of steers.

Some years ago he had got \$40 and never more than \$45 for 1,400 to 1,500 pound steers, but during the last three years the range owners were getting from \$100 to \$125 for the same class of animal. It was decided that this should be done.

Says Britain Must Aid Emigrants

In an address given by Lord Milner under the auspices of the Colonial Emigration society there was a significant change in the attitude toward emigration from the United States to the overseas dominions, and he held that it was the duty of the government to give more active help and guidance than hitherto. This could be done in two ways, direct emigration into the right channels, and make such arrangements that on arrival in their new homes the emigrants should have the best possible chance of success. Lord Milner said it was very necessary that the governments of the United Kingdom and the Dominions work very closely together.

Simple and Sure—Dr. Thomas Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment, the oil is easily rubbed in, and when used as a dressing, it is applied. The directions are so plain and unmistakable that they are readily understood by young or old.

Grisdale's Successor for Experimental Farm

Ottawa.—The vacancy caused by the promotion of Dr. J. H. Grisdale, director-general of experimental farms, to deputy minister of agriculture, has been filled by the appointment of E. S. Archibald, B.A., Dominion animal husbandman, to the position formerly occupied by Mr. Grisdale.

Mr. Archibald was appointed Dominion husbandman in June, 1912, and has filled the position with a great deal of success. For the past year he has been acting director of experimental farms.

Famous Battleships**Example of the Continuity of Naval Nomenclature**

The name "Elizabeth" is one of the traditional names of the British navy. There was an Elizabeth in the fleet as early as 1514, and the name was handed from ship to ship almost without a break for 250 years. Then for a century it remained forgotten, until 1912, the prefix "Queen" being added in accordance with the fashion introduced by King Edward.

Strangely enough, former Elizabeths have been associated rather with the failures than the successes of the British navy; and so the superstitious will wonder why the "Lizzie" was sent to the Dardanelles!

Tiger is another example of the continuity of naval nomenclature, for there has been a Tiger of some sort, fighting, chasing, blocking and cutting out for the last three centuries of naval warfare in various quarters of the globe. The first was built in 1546, and the present battle-cruiser is the eleventh warship that has borne the name. To link up the two would be to write the history of the British navy—or most of it.

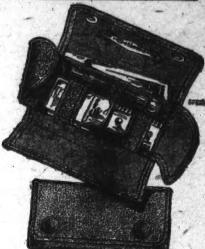

They Played Hard
"Mother! I'm so lonesome. I've no one to play with," complained Albert.

"Well, go and play with Dickey."

"Oh, I played with him this morning, an' I don't b'lieve he's well enough to come out yet."—Chicago Tribune.

Gillette Safety Razor

The Shaving Service for Every Man Everywhere

**No Stropping
—No Honing****The NEW KIT SET
No. 20**

A perfect shaving edge is the daily privilege of the Gillette Safety Razor owner.

Few men can stop or strop a razor sharp enough to stop it pulling on the neck and around the awkward places. With a Gillette you do not depend upon your own skill in stropping or honing.

The perfection of the edges of Gillette Blades is assured by our specially designed machinery.

The new Kit Set shown above is most compact (especially convenient when you go away for a holiday) on business, and enables you to enjoy the most comfortable shave in a few minutes every morning.

Your jeweler, druggist, or hardware dealer can show you a variety of Gillette Sets at

\$5.00 the set

School Fairs In Alberta

School fair work in Alberta is to be a much larger undertaking this year than ever before, the number of school fairs being organized being considerably more than double that of any other year. The Vernon district will have eighteen fairs this year, Olds sixteen, and Claresholm, four.

But few men ever make their way through the world on the strength of their phenomenal developments.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions, and when it gets out of order the whole system goes to pieces. The spiritus flagrante mind fatigued and work becomes impossible. The first care should be to restore the healthy action of the stomach, and the best preparation for that purpose is a diet of vegetables. In England it is used for years has won them a leading place in medicine. A trial will attest their value.

Strange Malady Kills Babies

Portland, Ore.—An epidemic of mysterious origin has broken out in the Waverly baby home, and as a result eleven babies are dead. Twenty-one are afflicted and twelve are in a critical condition. All affected are under three years of age.

None of us can yet tell in how many ways aviation is going to benefit our industries. This is one very important use to which it can be put which is at present engaging official attention. As we all know, aviators, when flying over the sea in inclement weather, can see a long way down into the water, a fact which was made full use of in the course of U-boat hunting. From an aeroplane shoals of fish can be observed from the surface, and the suggestion is that trained observers should be employed on the principal fishery grounds to signal the presence and whereabouts of these shoals to the waiting trawlers below.—London Daily Chronicle.

Flying Fishers

Don't Knock a Good Idea.

Hardly a week passes but some good citizen has a suggestion to make for the betterment of the town. No sooner is the suggestion made than some other good citizen objects—principally because he does not like the first citizen. It is human nature, and we are just as human here as elsewhere. But is a better way—a way that is quite as human and more humanizing. Forget your antipathy toward the man and think only of his suggestion—of what it will do for the town—or of what it will mean to you as a citizen of the town. Very few good citizens think exactly alike. Many are diametrically opposite in their convictions in their tastes, in their likes and dislikes. But there is a common ground upon which we may all meet and bury our animosities. That is the common good of all—the betterment of our community—the fostering of the welfare of our collective citizenry for the benefit of each individual citizen, and for the benefit of ourselves. It is the starting point of prosperity—the grave of adversity. It is the point we should seek and find.

Canadian Bank of Commerce
Man For Big New York Bank

NEW YORK, Sept. 14.—The board of directors of the National City Bank of New York at a meeting this afternoon elected Vere C. Brown, western superintendent of the Canadian Bank of Commerce, to the position of executive manager of the National. Mr. Brown will assume his duties in New York in the near future. He entered the service of the Canadian Bank of Commerce in 1887.

WINNIPEG, Sept. 14.—Vere Brown, western superintendent of the Canadian Bank of Commerce, who has resigned from that post to become a member of the committee of executive managers of the National City Bank of New York, is one of the most widely known bankers in Western Canada. The National City Bank is the largest banking institution in America, its total resources exceeding \$1,000,000,000. The general management is in the hands of the president and a small committee of executive managers, of which Mr. Brown is made a member. The board of directors includes men of substantial standing, such as James A. Stittman, the president; William Bessell Jr., J. Ogden Armour, Cyrus L. McCormick and Henry A. G. Taylor.

Cars Available for
Shipping Grain

Information has been received by the Department of Agriculture from the Canadian Pacific Railway that this Company has a large surplus of cars awaiting loading and in view of the heavy crop of grain to be shipped, there is a prospect of a car shortage later on in the season.

The Department would therefore urge farmers and grain firms to ship as much grain as possible to the head of the Lakes during the present month. In doing this, the Department is not in any way advising people to sell their grain at the present time as this is a matter which each man must decide for himself.

H. S. Craig
Deputy Minister

Prefers Alberta to
Idaho or Washington

Vegreville Man Comes Home Sat-isfied That This is the Only District to Live in.

Always a good booster for Alberta and more especially for the Vegreville district, Dr. Goodwin is now even more confirmed in his impression that this is the banner province of Canada and that this district is the superlative one in the province. Certainly, as compared with parts of Washington and Idaho which came under his observation during his recent auto tour, Alberta has them faded to a whisper.

Dr. and Mrs. Goodwin and their family, accompanied by Miss Wright, returned last week from an extensive trip to points in the States mentioned, also including in the tour a visit to Victoria, Vancouver and other British Columbia points.

On Monday he told the Observer that in order to appreciate Alberta it was necessary to see some other places. For instance they crossed into Idaho at Kingsgate and went across that state and Washington to Spokane. "Very poor country most of the way," said the Doctor. "Good deal of sand and desert with sage brush and jack rabbits as the principal products; very dry country requiring irrigation; they have had no crops for the past five years, so I was told, and farms are deserted all along the way. It did my soul good to get back to Alberta and see some real vegetation. One acre here is worth 1000 in that desert."

He added that west of Spokane as far as the heights of the last range of mountains is much the same; desert most of the way with an occasional fertile valley.—Vegreville Observer.

SPORT DOPE

By BUCK

"All entered in good faith and without prejudice"

It is with regret that we announce the sad plight of Russ Love. It seems that Russ decided to take a trip to the country on Sunday in his "Four Cylinder Chevrolet Airplane." The former part of his trip was made successfully but he alighted in the coulees on the way to Hills and with "Hills" in front of him and hills behind him found upon making his landing that it was impossible to again take the air—in fact the engine of his plane refused to take air or gas and even the spark died. We never heard whether Russ had to walk home or not, but the ill-fated "Airplane" arrived in town today via the road route—checked to Dixon's Garage—thus beating the increased freight rates. We hope that Russ has a more successful trip on any future journeys that he might from time to time hereafter attempt.

The writer wishes to announce that, beginning Friday October 29th a dance will be held in the Co-Op Hall every two weeks all winter. The dances, following the first one will be held every second and fourth Wednesday of each month. Supper will be served at each dance and the price of admission will be \$1.00 and an additional charge of 5 cents for war tax. The music procurable in the Irma District will be in attendance at each dance. We would like to ask that everyone who is at all anxious to dance, to try and patronize, as much as possible, these dances during the winter months and thus keep Irma alive.

Who were the young men that we noticed walking around the streets the other morning after the dance at Wainwright? We just want to ask if that white stuff on their shoulders was flour or "Djer Kiss?" Several complaints have been sounded lately about the quantity of so called "Djer Kiss" and "Jonted" that the young girls of Wainwright use and it is with pride that we say, the girls of Irma—though they may use just as much—manage to conceal the fact so successfully, that it deceives the human eye—but is always leaves that "tell tale" white spot on the shoulder of our coats, thus putting us in a most embarrassing position. The only one that has any "camouflage" against this is "Trotsky." His remedy is to go out and roll among the flour sacks in the Irma Co-op ware house.

An Irishman was buying a ticket from Irma to Viking and, when Charlie asked him if he wished a

return ticket, the Irishman answered "Be gorry phat do I want a return for when I am here already?" And then they say a station agent has an easy job?

Who was the young gentleman who was heard making the following speech, "The British have agreed to restore Palestine to the Jews and in lieu thereof, the Jews are to give, in return, 10th street back to Edmonton?"

In view of the increased passenger rates, a young man who had had some disagreement with Roy, said, "Now this is where I get even. I'll go over and buy a return ticket and only go one way."

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

Kinsella.

The Jarrow S. D. has been fortunate in securing the Rev. T. T. Edmonds, B. A., as teacher for the coming term.

Mr. Gilmour of the Royal Bank staff at Lacombe, who has been relieving W. Mann at this point while he was away on a two weeks' vacation at Winnipeg, has left to resume his duties at the Lacombe branch.

Mr. Pritchard of Edmonton has arrived to help build Mr. Williams' dwelling house. Mr. Pritchard did a good deal of carpenter work here last summer.

C. G. Purvis, lawyer, will visit Kinsella every Saturday, commencing September 18th.

Mr. La Bla is resigning as engineer for the Kinsella Sand company and is leaving for the United States owing to his health, in the near future.

Mr. Ed Miller and family, W. W. Kerns, Mr. Fleming, Miss McKinnon, Miss Alfreda McNeill and Sister Lucille were Wainwright visitors Sunday, the 5th.

Miss Gertie McKinnon of Phillips spent Saturday at the home of Mrs. Ed Miller.

Miss Lucille McNeill of Edmonton is spending a few weeks with her sister, Miss Alfreda. Miss Lucille is just recovering from a six-week spell of typhoid.

The first threshing machine to start in the Kinsella district began Sept. 14. Mr. Dobry, west of town, holds the honor.

We understand that Mrs. Echart will have a house-built on the lot adjoining Mr. Loftus on the west side. Kinsella is always growing.

Mrs. Upton is relieving Mr. Upton as teacher of the Lake Vernon school, while Mr. Upton is away to Edmonton for a few days.

The G. T. P. bridge gang is here and is busy lathing and plastering the station.

Mr. and Mrs. J. Davidson are back in the district once more. They are selling some of their property before leaving again.

Mr. Whalley of the Merchants bank at Daysland, formerly of this district, spent the week end at Kinsella with friends.

Mr. More has arrived to take charge of the U. G. G. elevator here. We will now have six days a week service instead of three as formerly.

Mr. Collier, night operator at the station, is here again after spending a two weeks' holiday at Calgary and other points.

Messrs. Marshall, Hulkirk, Smith and Cooper are all busy buying up the cattle that pulled through last winter. Owing to prices being very low only a few cars have been shipped.

E. C. Williams' dwelling house is coming along nicely and is now about ready for the plasterers.

Grain cutting is now nearly all completed throughout the district. We have been favored by excellent harvest weather all along. From all reports the grain is of good quality and a good yield is expected. Although some of the farmers have complained of not being able to get all the help they wanted everyone is getting along and no setback to speak of has been reported owing to shortage of help.

The sad news has arrived that Miss Rena Hougan died in a hospital at Edmonton on Sunday, Aug. 29, at 1 o'clock. Miss Hougan had been ill for several months and had been residing with her mother south of Jarow until recently, when she was taken to Edmonton. Internment took place at Edmonton. She leaves to mourn her loss her mother and several sisters and brothers, most of them residing in the Kinsella and Jarow districts. We join in extending condolence to the sorrowing relatives.

VIKING

Jas. Thompson, who is doing some excellent truck farming near Lake Thomas, brought in six big spuds last week that weighed 7 3/4 pounds. They are on display in the News office windows and have occasioned considerable interest on account of their size. Mr. Thompson has about 200 bushels to sell and advertises the fact in the want column.

Wheat seems to be the banner crop in this district this year and farmers who took a chance on wheat are going to reap the benefit of their judgment. An idea of the yield that can be expected generally is shown by the threshing of 60 acres of wheat on the Chas. Bissell farm north of town which went 43 2-3 bushels to the acre according to the threshers measure. The Jas. Newby threshing crew did the job.

The administrator's sale of the property of the late Anthony Mackay held last Saturday at the Mackey Livery Barn, was well attended, and the stuff brought good prices. Col. Stewart being on the job as auctioneer. Mr. Mackay, Sr., who has been in charge of the barn since April, expects to return to his home near London, Ont., in about two weeks.

H. N. Irwin was over from Sedgewick on Sunday where he is installing phones for the government. Andy McPherson has charge of the pool hall in his absence. Harry expects to be busy all fall in the telephone construction department installing phones in the rural districts.

R. Christy returned last Friday from Winnipeg and Banff where he has spent a month's vacation, and has resumed the management of the local Bank of Commerce. Mr. Lewis, who was manager during his absence, has returned to his home at Edmonton South.

Garfield Martin, a young man who has been employed on the B. C. Gilpin farm, north of town, received a telegram Wednesday that his brother had died at his home in Ontario. The young man left on the morning train.

The Connaught Lodge No. 69 held a meeting Monday night and were honored by a visit from the district deputy grand master A. R. Ennis, of Leduc.

Alex McLaren, of near Bruce, was called to his home in Iowa last Wednesday upon receipt of a message that his aged mother was not expected to live.

Six horses were killed by a freight train early Sunday morning about a mile west of Phillips. Five belonged to L. Hagenson and one to E. Soltstad.

C. H. Westbrook of Scotland, near Brantford, Ontario, is visiting his brother, R. E. Westbrook of Phillips.

Mrs. Maguire, of Kelliber, Sask., arrived last week to take the position of teller in the Bank of Commerce here.

Posters are out announcing a sale for Mr. H. S. Williams three miles south of Kinsella, on October 5th. A. A. Long is auctioneer.

Mrs. J. A. Robinson left for Eckville, Man., last Wednesday to visit her sister there.

Nils Lindholm, of Jarow, was in attendance at the Masonic lodge meeting here Monday evening.

Threshers Must Register.

Every person, firm or company owning or operating a threshing machine or separator or causing the same to be operated must register his or her machine or machines with the Minister of Agriculture and must procure a certificate of registration. The penalty for not complying with this act is \$25 and costs. The fee for registration is \$1.00.

Offers are invited for purchase of portion of Block F. Townsite of Irma containing 1.59 acres more or less and all improvements thereon formerly the property of Frank Roe now deceased. Offers stating price and terms required should be in writing and forwarded to Fieldhouse & Hunter, Barristers, Irma, Alberta.

More or Less Funny

Things to Worry About—Who is feeding MacSwine? Anonymous Letters. Xmas Presents. Only 93 days to Xmas. Drafts due today. Is your Subscription to the Times paid?

A lumberman down at Forestburg went to Ontario recently and got married, after which he sent apologies to all the school ma'ms in the district for doing such a rash act.

A farmer writes that the threshers are coming to his place next week and his wife wishes they would all go on a hunger strike. Yes, yes, no doubt it would save a lot of work and lot of food. When it comes to stowing it away, continues this farmer, a threshing crew is the champion eaters. (Editor's note—Yes, and they earn it.)

Talking about a hunger strike, were you ever sent to bed without your supper when you were a kid because you did something ma didn't like?

Wonderful Remedy Establishes Regularity, Cures Constipation

As you value life itself, never use medicaments that ract the system. Castor oil is bad enough, but violent cathartics are the limit.

When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills. They so quickly and scarcely feel their action, yet so effectively that the entire secretory apparatus is stimulated to healthy action.

Dr. Hamilton's Pills move the bowels gently.

To tone the liver and kidneys.

They renew the blood.

Digestion is assisted.

Hedgetoes disappear.

Stomach rumblings cease.

Dr. Hamilton's Pills are more than a bowel medicine, for they act as a system cleaner and general tonic. For those who feel dull, heavy and morose, for those who suffer frequently from colds, biliousness and stomach disorders, there is no better medicine.

You risk nothing in using Dr. Hamilton's Pills because they are guaranteed.

Made according to the formula of one of the greatest physicians that ever lived, Dr. Hamilton's Pills are bound to give your system just the aid it requires. Sold by all dealers, 25c per box.

British Empire Model Democracy

Americans Learning About Methods, Finding Much Worth Copying

That Americans who think have been learning much about Britain and British methods that was new to them and finding much worth copying was the statement recently made by Dr. J. S. Kirkley, who is at present supplying the pulpit at the First Baptist church.

Speaking on the strange phenomena presented by the ideals which had for so long governed the German nation, and which had inspired the war, he said that one of the basic mistakes was the blind belief in the divine right of kings. The continuance of such a doctrine had been made impossible in Britain when the barons met their king at Runnymede and forced him to sign the great Magna Charta.

"There is a great difference between your king and other kings," continued Dr. Kirkley. "You know better than I do (and have known it longer than I have) that King George would fail from his throne within a few days if he ever attempted to 'rule' the people as the term is generally understood. You call him your ruler it is true, but he is in fact the representative head of all the people, not only in Britain, but throughout the whole empire."

"It is my definite conviction that the system which you have goes further toward real democracy than does even our own system of which we Americans think so highly. We too have our representative rulers—but we have many of them. Then we have one whom we call our President, who is really the chief ruler. Behind him stands the whole nation. He is our representative head and our chief executive. But there is just this difference. Besides appointing him as our representative, we also give him full executive authority. You acknowledge your king as your representative. What is done in his name is acknowledged to be in your behalf. But you do not give him executive authority. You virtually keep that in your own hands, exercising that authority through other and specially chosen representatives. That is where in my conviction the British system is even far more democratic than our own. I do not think I am alone in this, but it is only through the special circumstances of the last three or four years that we are realizing these things."

Dr. Kirkley added that it was obviously desirable that the two great peoples referred to should get a better understanding of each other, and he profoundly hoped that the future would witness very hearty unity between them—Winnipeg Free Press.

Told Berlin Germany Began War

Captain von Berfeld, who published the famous memoirs of Prince Lichnowsky, was permitted to speak in Berlin last week, and he declared Germany guilty of starting the war.

Prince Lichnowsky, former ambassador to Great Britain, put the blame on Germany in the papers which were published in Berfeld.

Am To Make World Safe For Teetotaler

Anti-Saloon League of Nations to Be Organized

Washington.—"The Anti-Saloon League of Nations," with aims of making the world safe for the teetotaler, will be organized here. The American anti-saloon league is the sponsor. A covenant has been framed by a special committee for the international organization for submission to the American league's convention.

Plans are for all nations, large and small, to have an equal representation, but it is admitted that the United States, between the dominant prohibition power, probably will be in control. The "secretariat" is expected to be located at Washington. A special foreign relations committee of the "league" is provided with Jas. A. White, of Columbus, as chairman.

Germany has not yet applied for admission to the "league," but other countries that will have charter members besides the United States are Canada, Great Britain, France, Ireland, Italy, Scotland, Japan, New Zealand, Australia and Mexico.

Japan's Isolation

Military and Financial Provisions to Offset Menace

Tokio.—T. Nakashita, minister of education, recently pointed out in a speech at a political meeting that Japan may be left in an isolated position with relation to the great powers. He said: "Russia and Germany are now ruined and there are only three great powers in the west—Great Britain, France and America. These three powers can easily get together because their language and strength are about the same, but Japan, being of a different race, may have to stand absolutely alone.

"Japan, therefore, must provide against this by regulating her finance and strengthening her national defense."

Black Watch—The Best Black Plug Chewing Tobacco on the Market

Relief Work In Palestine

Jews in Palestine Well Cared for By British Government

New York, N.Y.—That the Jews in Palestine have been well cared for by the British Government, and that plans for their education and economic establishment are progressing well was announced by Felix M. Warburg, in his first report as chairman of the joint distribution committee, which has handled some \$19,000,000 raised in the United States for Jewish relief. Mr. Warburg urges the adoption by people in this country of Jewish orphans, just as war orphans of France and Belgium are adopted here. He says that this is no time to talk of reconstruction, since the need of temporary relief in the way of food and clothing is so immediate.

A man never loses money on fast horses. It is the slow ones that drive him to the free lunch counter.

It Freed Me Of Headaches"

This Is What Many Thousands of People Write About Dr. Chase's Nerve Food—Not Mere Relief, but Lasting Cure

Chauvin, Alta., June 14.—When the human system gets run down, the blood thin and the nerves exhausted, one of the most constant and distressing symptoms is the desire to scratch. This is a temptation to use strong drugs to ease the pain, but such relief is only temporary, and is obtained at an enormous expense to the nervous system and the health reaches return to increased violence.

Real cure is only obtained when the vigor of the nervous system is restored by such treatment as Dr. Chase's Nerve Food.

Mrs. Rene Page, Chauvin, Alta., writes:

"I have used Dr. Chase's Nerve Food, with splendid results. Some little time ago it seemed to lose my appetite and affected my bowels.

"A treatment of the Nerve Food soon put me on my feet again. It helped my appetite, freed me from headaches, and restored my healthy. I feel like a new man now, and thank Dr. Chase's Nerve Food for its wonderful remedy."

I also have to thank Dr. Chase's Ointment for a speedy cure of barber's itch. I have used it for pimples and burns, too."

Certified by Leger E. Roy, J.P., Chauvin, Alta.

Mrs. H. Christoffer, Greenbrier, Sask., writes:

"It is a pleasure to me to write you in praise of Dr. Chase's Nerve Food.

I suffered for over twenty years from rheumatism, neuralgia, violent headaches and palpitation of the heart. My back ached, I could not sleep, and was always tired and weak.

"I had taken a great many medicines of all kinds, but never got rid of anything to help me until I used Dr. Chase's Nerve Food. This did me more good than all the medicines I ever took, and I cannot say enough in praise of it."

This letter is endorsed by Mr. J. C. Blich, Postmaster at Greenbrier.

RICH, RED BLOOD MEANS HEALTH

Weak, Pale People Require a Blood-Making Medicine

It took centuries for medical science to recognize that the blood is the life of the body. It is only when the blood was always abundant, rich and very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the amount of the blood. This device could tell just how anaemic a patient had become, and with medicine to make new blood the patient soon got well.

The simplest and very best of blood-makers suitable for home use by anyone is Dr. Williams' Pink Pills. When once a course of these pills is taken, their effect is almost神奇的. They prove a appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours. For women there is a prompt relief of, or prevention against, the various complaints of the womb.

Kate, Preston, Ont., tells how she obtained new health and strength through the use of Dr. Williams' Pink Pills. She says that the woman came on to her individually, but at first it was hardly noticeable.

But after a time it got so that I could not go up stairs without stopping to rest. Every particle of my flesh, every hand and every limb ached. I lay myself down and leave my heart palpitating violently. I consulted a doctor who told me the trouble was a tonic. I took this medicine for a month, but still did not seem to help me a bit. Then I read of a cure in a similar case through Dr. Williams' Pink Pills, and decided to try them. The result was these pills made me feel like a new woman. I have gained weight, strength and health, and feel that I owe my present condition entirely to Dr. Williams' Pink Pills.

You can get these pills through dealers in medicine, or by mail \$0.50 cents a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

Silos In Western Canada

Oats, Peas and Barley Splendid Substitutes for Corn

The use of silos in Western Canada will gradually increase with the development of the country. In the past the need for them has not been greatly felt in this country, for the farmer generally has obtained an abundance of feed for all his cattle on the vacant lands adjoining his own. The opportunities for maintaining a large number of cattle in this manner will decrease with the settlement of the country, and forage crops will have to be cultivated on a much larger scale than has hitherto been necessary. This will bring silos into more general use.

But it will be a surprise to many to know that there are already, nearly two hundred silos in actual use in the Prairie Provinces of Canada. Manitoba has more than a hundred, and Alberta and Saskatchewan at least sixty between them. All types are in use, from the wood stave to the concrete silo above ground, and the underground or pit silo. The wood stave silo is most commonly used.

Silo users in Western Canada do not need to depend too much on one crop for ensilage. Corn is largely grown for this purpose in Manitoba, but oats, peas and barley have been found to be splendid substitutes for corn in Alberta. These are cut green and stored in the silos. They are certain crops and can be grown with much less labor than corn.

The introduction of silos on the farms in the irrigated areas of Southern Alberta will doubt be one of the first movements in the direction of their more general use in Western Canada. There is no doubt that silos will have a big influence in stocking up the land.

In view of their importance in the future development of Western Canada, silos will be the subject of a discussion at the convention of the Western Canada Irrigation, which is to be held at Medicine Hat, Alberta, during the first three days of the week beginning August 4th. Professor G. H. Hutton, superintendent of agriculture and animal industry, of the C.P.R., will read a paper on "Increasing Profits Through the Silo," and will be followed in the discussion by Prof. S. G. Carlyle, live stock commissioner of the province of Alberta. Both speakers are authorities on the subject, and have gathered a good deal of information regarding them and their use in Western Canada.

"It is a pleasure to me to write you in praise of Dr. Chase's Nerve Food, with splendid results. Some little time ago it seemed to lose my appetite and affected my bowels.

"A treatment of the Nerve Food soon put me on my feet again. It helped my appetite, freed me from

Premier Clemenceau Visited Dog Veterans of the War

Stole Away From Discussions to Visit the Canine Veterans of the War

Though the Englishman is proverbially regarded as the dog lover of the universe, it is doubtful whether any nation has gone so far in appreciation of canine virtues as the French. Some time ago mention was made of military honors conferred on French army dogs who had shown an almost human intelligence and had been instrumental in saving life.

Not long ago Premier Clemenceau stole away from the discussions over the Saar Valley and the Rhine problem to visit the canine veterans of the war, who had been assembled at the Jardin des Plantes under the care of Blue Cross organization. He shook the paws of several of the animals with distinguished service records, and altogether enjoyed himself very much.

One result of the war should be even greater interest in the cause of dumb animals. The dog, the most expressive of beasts, and the greatest of all pantomimists, not excepting the cleverest of human exponents of the art, naturally claims for himself recognition. The horse has something about him which suggests the thought of heroism. But even the mule, taciturn, and even bovine at times, won his title to esteem during the war. Certainly the dumb brutes who were conscripted for service did their bit in a way that mankind cannot forget.—Toronto Saturday Night.

Killed By Bandits

Over Forty U.S. Citizens and Mexicans Are Victims

Nogales, Ariz.—More than forty United States citizens and Mexicans have been killed by Yaquis and bandits in the La Colorado district of Sonora, Mexico, during the last two weeks, according to the statement of a number of American mining men who arrived from that neighborhood.

The party of Americans, whose homes are in Arizona, Colorado and California, have sent a statement of conditions in that district to the state department at Washington, with copies to Senators Thomas, of Colorado, Johnson, of California, and Smith and Ashurst, of Arizona.

With the Fingers! Says Corns Lift Out Without Any Pain

Some corns, hard corns, soft corns or any kind of corn can be lifted right out with the fingers if you will apply directly upon the corn a few drops of freeze, says a Cincinnati authority.

He claimed that at small cost one can get a quarter of an ounce of freeze at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

The new method, an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

The announcement will interest many women here, for it said that the present high-heeled footware is putting corns on practically every woman's feet.

Canadian Wheat For Greece

Amount Involved About 1,000,000 Bushels a Month for Twelve Months

Ottawa, Ont.—Mr. J. A. Robb, chairman of the Liberal committee of the House of Commons, recently asked a question of the government in reference to the reported sale of Canadian wheat to Greece. In reply, Sir Robert Borden, the Prime Minister, said that negotiations had proceeded with this end in view, but that up to the present no actual contract had been signed. The efforts of the government had been directed to the exportation of wheat products, but it was not always possible to accomplish that to the full extent desired. He was not sure if any portion of the purchases by Greece would be wheat products instead of wheat. In amplification of this statement, Sir Thomas White, Finance Minister, added that the amount involved would be about 1,000,000 bushels a month for a period of twelve months. The price would be the market price in Canada at Port Arthur, plus the carrying charges to the seaboard and on the ship. The wheat exported to Greece would include 3,000,000 bushels of this year's product.

Largest Tank in the World

The largest oil reservoir in the world has just been completed at Rosyth for the British Navy. An account of this immense work, which appears in Engineering, states that it is in two sections, with a total capacity of 60,000,000 gallons, and covers 114 acres. It is built of concrete on a rock foundation and is rooted over.

Not Much

The average yearly consumption of soap in Russia for each person is only a little more than two pounds.

Eighty-five per cent of men who have money at thirty-five lost it before they reach sixty-five.

British Immigration Will Be Facilitated

Every Indication That Some Scheme Will Be Brought Forward

London.—There is every indication that some comprehensive scheme of emigration will be brought forward long, now that Lord Milner, secretary of state for the colonies, is giving the matter much attention. At a meeting held in London quite recently and convened by the British Women's Emigration association, the South African Colonization society, and the Colonial Intelligence league, Lord Milner made an interesting speech, saying that in his opinion the flow of emigration, which he described as a healthy and natural process, had to be directed into the right channels, and that the government should give far more help and guidance in the matter than it had done in the past.

Japan Has German Colony

Many Prisoners Are Still Loyal to Former Kaiser

A German colony in Japan is represented by the Osaka Mainichi's Tokio correspondent, who says that many German prisoners in Japan, numbering in all 4,500, are still loyal to the former Kaiser, and hope to secure positions in the South Sea Islands and in China. Several hundred German prisoners at the Narashino detention camp are about to petition the Japanese government for permission to form a colony in Hokkaido when their release is granted. The Mainichi adds that the authorities are giving the request serious consideration owing to the fact that many expert machinists and other artisans whose experience can be turned to good account are among the petitioners.

Battlefield Mystery

Flowers not known within living memory to the natives of the districts are breaking out on the scarred surface and in the shell holes and dugouts of the battlefields of France. It is believed that the strange flowers have sprung from seeds buried in the depths of the earth for decades. A leading London botanist tells The Weekly Dispatch it is known that seeds have been buried for upwards of 60 years without losing their power of germination, and he thinks it is quite possible that strange plants are now flowering as reported, as the tearing up of the earth by heavy shell fire may have created conditions for their growth after having long lain dormant.

Want Standardized Pensions

Vancouver, B.C.—The Army and Navy Veterans' Association has passed a resolution calling upon the Dominion government to standardize the pension system. A number of speakers expressed objection to officers being granted higher pensions than the men in the ranks, in view of the fact that the Canadian army was composed almost entirely of volunteers. Many men of high education and business attainments joined at privates in order to get to the front sooner.

No Cheaper Cloth

Toronto.—There is absolutely no indication that prices will go down; in fact, our information is all the other way.

This was the unanimous statement of a number of manufacturers and wholesale cloth men in Toronto in regard to a report which has been prepared by the cost of living commission in Ottawa, which promises to get under way as quickly as possible. They plan to break 3,000 acres this summer.

The Moose Jaw Y.M.C.A. proposes to enlarge its building this year.

Did you ever see a barbershop start to shave a customer without stopping his razor first? Never! Isn't this fact significant?

Stropping, you see, is needed to reform the saw-like edge that results from shaving; to keep the blade free from rust; and to give you for each morning's shave a keen-edged blade. The self-stropping feature of the AutoStop Razor preserves the keen edge that makes shaving comfortable possible.

Stropping—shaving, cleaning, are all done without removing the blade from the razor.

Razor — Strop — 12 blades — \$5

Wholesale Emigration Is Planned

London.—The Canadian Associated Press understands that an agreement has been reached for the promotion of an imperial scheme of emigration to enable British soldiers to settle in the dominions. The basis of the plan is free passage provided by the British Government and loans at pre-war interest. The idea is to open up new tracts, build railways, and generally finance settlers. This scheme is independent of the plans of the dominions for their soldiers.

Iowa Bankers Secure 8,000 Acres

Winnipeg.—On the invitation of D. A. Downie, of Winnipeg, a party of Iowa bankers visited Western Canada last fall and made quite an extensive tour of the country. As a result of this visit they have secured a track of 8,000 acres of land in the Swan river valley, which they intend to get under cultivation as quickly as possible. They plan to break 3,000 acres this summer.

A Labor Saving Combination

"It is the last straw that breaks the camel's back." So runs the old proverb. And it is the little extra efforts which tire you out on wash-day.

Eddy's Indurated Fibreware Washtubs and Washboards

form a combination which saves you much extra labor. Indurated Fibreware tubs are much easier to lift and to move about. They keep the water hot for a much longer space of time, because they do not conduct heat as metal does. They are easier to keep clean, because they are made in one piece without joint or seam, and the hard, glazed surface is impervious to liquids or odors. And they cost no more. Last longer, too.

Eddy's Twin Washboard. Indurated Fibreware which loosens the dirt quickly and saves many tiresome motions.
